Comment (Optional)	Depending on when PO is issued delivery could be moved up in production. October delivery is a tight delivery requirement. It may be possible we can move an order into a inventory slot to meet the October deadline. We need a minimum of 90 days to make spec changes to an inventory unit that is scheduled at the factory.	Our brochure references a 26k chassis. As the quote states, yours is quoted on a 33k chassis. Additionally, I may have more options included than you require. From my quote, you can clearly see what is included and manually deduct what you may not need (if any). Thank you.
