

Chemistry & Biochemistry Bldg.

Montana State University

Project Information

Total Project Cost:

\$23,527,270

Project Square Footage:

73,000 sq. ft.

Year Completed:

2007

Architect:

L'Heureux Page Werner
Great Falls, Montana

Contractor:

Dick Anderson Construction
Helena, Montana

The Chemistry & Biochemistry Building added 73,000 square feet of research space and reflects a growing level of national and international prominence in research and education programs in chemistry and biochemistry at Montana State University.

The project maximized laboratory space, achieving 89,613 sq. ft. of laboratories, along with supporting offices for 20 MSU researchers and 180 graduate assistants.

Public spaces feature a prominent day-lit entry atrium including an open four-story staircase. Lecture halls and think-tank area were also provided, allowing scientists to interface with other specialists.
